

Concerned your child's development isn't where it ought to be?

Have your child evaluated because everyday can make a difference!

Our services include occupational, physical and speech therapy, special education and psychology. At the **Therapy Center for Children** we are ready to help your child to get into their right spot.

Early intervention and preschool services are at *no out of pocket cost to eligible families*, with services funded by the New York State Department of Health and Suffolk County Department of Health. The Therapy Center also provides private pay sessions.
