

If there something setting your child apart from others their age and...

WE ARE HERE TO HELP!

- So have your child evaluated because everyday can make a difference. ●

Early intervention and preschool services are at *no out of pocket cost to eligible families*, with services funded by the New York State Department of Health and Suffolk County Department of Health. The Therapy Center also provides private pay sessions.

At the **Therapy Center for Children** our services range from occupational, physical and speech therapy, special education + **psychology** and are all focused towards helping your child to develop the skills to make their lives more purposeful.
